

Examination Rules and Regulations

Assessment Structure, Grading, and Academic Integrity

Document Code	ANUST/EXAM/REG-009	Version	7.0
Effective Date	September 01, 2026	Issuing Office	Office of the Registrar

1. Governing Authority

All examinations at Al-Noor University of Science & Technology (ANUST) are conducted under the authority of the Controller of Examinations (COE), in accordance with regulations approved by the Academic Council. These rules apply uniformly to all faculties unless a program-specific exception is explicitly approved by the Academic Council.

2. Types of Assessment

Assessment Component	Weight in Final Grade	Timing
Quizzes (announced/unannounced)	10%	Throughout semester
Assignments/Projects	15%	Throughout semester
Mid-Term Examination	25%	Week 8–9 of semester
Final Examination	50%	Week 16–18 of semester

Individual course instructors may propose a different weightage distribution at the start of the semester, subject to approval by the Department Chairperson, provided the Final Examination weight does not fall below 40% or exceed 50%.

3. Eligibility to Sit Examinations

A student must satisfy both of the following conditions to be issued a Roll Number Slip for the Mid-Term or Final Examination:

- Minimum 80% attendance in the course (or Dean's approval for 70%–79%, per the Student Handbook).
- No outstanding fee dues as of five working days before the examination start date.

Students who do not meet these conditions are marked 'NP' (Not Permitted) on the result sheet and must repeat the course in a subsequent semester.

4. Grading System

ANUST uses a relative (bell-curve) grading system for large-enrollment courses and an absolute grading system for courses with fewer than 15 enrolled students, at the instructor's discretion and Chairperson's approval. The standard letter grade to grade point mapping is as follows:

Marks Range (%)	Letter Grade	Grade Point
85 – 100	A	4.00
80 – 84	A-	3.67
75 – 79	B+	3.33
70 – 74	B	3.00
65 – 69	B-	2.67
60 – 64	C+	2.33
55 – 59	C	2.00
50 – 54	C-	1.67
45 – 49	D	1.00
Below 45	F	0.00

4.1 CGPA Calculation

Cumulative Grade Point Average (CGPA) is calculated as the sum of (grade point × credit hours) for all attempted courses, divided by the total number of attempted credit hours. Repeated courses replace the original grade in the CGPA calculation, but both attempts remain on the academic transcript.

5. Minimum CGPA Requirements

Program Level	Minimum CGPA to Remain Enrolled	Minimum CGPA to Graduate
Undergraduate	1.70 (probation below this)	2.00
Graduate (MS)	2.50 (probation below this)	3.00
Doctoral (PhD)	3.00 (probation below this)	3.00

6. Academic Probation and Dismissal

A student whose CGPA falls below the minimum threshold in Section 5 is placed on Academic Probation for the following semester. A student on probation who fails to raise their CGPA above the threshold within two consecutive semesters is recommended for dismissal by the Academic Council.

7. Examination Conduct Rules

The following rules apply to all students during Mid-Term and Final Examinations:

- Students must arrive at least 15 minutes before the scheduled start time; entry is not permitted more than 30 minutes after the start of the examination.
- A valid, university-issued student ID card must be displayed on the desk throughout the examination.
- Mobile phones, smart watches, and any electronic device other than an instructor-approved calculator must be switched off and deposited at the front of the examination hall.
- No student may leave the examination hall in the first 30 minutes or the last 10 minutes of the exam.
- Communication of any kind between students during the examination is strictly prohibited.

8. Academic Integrity and Malpractice

Examination malpractice includes, but is not limited to: possession of unauthorized material, copying from another student's answer sheet, impersonation, use of electronic devices to access unauthorized content, and plagiarism in take-home assessments. Penalties are determined by the Unfair Means Committee (UMC) as follows:

Category	Example	Penalty
Minor	Talking during exam, unauthorized notes not used	Warning; answer sheet may be cancelled
Major	Copying, use of unauthorized material actively used	'F' grade in the course
Severe	Impersonation, pre-planned cheating device, forged documents	Suspension for one semester; may escalate to expulsion

9. Re-Take and Improvement Examinations

A student who receives an 'F' grade must repeat the course when next offered. A student who wishes to improve a grade of 'C-' or below in a passed course may register for an Improvement Examination, subject to the conditions below:

- Improvement attempts are permitted for a maximum of two courses per degree program.
- The higher of the two grades (original vs. improvement) is used in the CGPA calculation.
- An Improvement Examination fee, as notified by the Finance Directorate, applies per course.
- Improvement examinations are only offered for courses within the student's own degree program and must be completed before the semester of expected graduation.

10. Result Announcement and Transcript Requests

Provisional results are announced on the student portal within three weeks of the last Final Examination of the semester. Official transcripts may be requested through the Examination Office at a fee of PKR 500 per copy, with processing time of five working days.

11. Grade Appeals (Rechecking)

A student may apply for rechecking of a Final Examination answer script within seven calendar days of result announcement, upon payment of the prescribed rechecking fee per course. Rechecking is limited to verification of totaling and ensuring all questions were marked; it does not involve re-evaluation of the marking scheme itself. If an error is found, the fee is refunded and the corrected grade is issued.

12. Special/Deferred Examinations

A student who misses a Final Examination due to a documented medical emergency, death in the immediate family, or officially sanctioned university representation (e.g., sports, debates) may apply for a Special Examination through the Dean's office within five working days of the missed exam. Supporting documentation is mandatory; a medical certificate must be issued by a registered practitioner and countersigned by the University Medical Officer.

Reason for Absence	Documentation Required	Approval Authority
Medical emergency	Medical certificate + University Medical Officer countersignature	Dean
Death in immediate family	Death certificate or affidavit	Dean
Official university representation	Letter from Directorate of Sports/Student Affairs	Registrar

13. Thesis and Research Defense Examinations

For MS and PhD candidates, the Final Examination in the terminal semester takes the form of a thesis or dissertation defense before a committee comprising the supervisor, an internal examiner, and (for PhD) an external examiner from another HEC-recognized institution. A candidate must submit a plagiarism similarity report not exceeding 19% (individual source match not exceeding 5%) as a precondition for scheduling the defense, in line with HEC plagiarism policy.

Queries regarding examination rules should be directed to the Controller of Examinations Office at coe@anust.edu.pk.
