

Fee Policy

Tuition Structure, Payment Schedules, and Refund Rules

Document Code	ANUST/FIN/POL-007	Version	5.2
Effective Date	August 01, 2026	Issuing Office	Office of the Registrar

1. General Principles

This policy sets out the fee structure applicable to all degree programs at Al-Noor University of Science & Technology (ANUST), the schedule for fee payment, penalties for late payment, and the conditions under which fees may be refunded or adjusted. Fee rates are reviewed annually by the Finance Committee and approved by the Board of Governors; any revision applies prospectively and does not affect students already admitted under a prior fee schedule for the remainder of their current degree, except for University-wide charges such as the security deposit.

2. Fee Structure by Program

Fees are charged on a per-semester basis and consist of a tuition fee (per credit hour for graduate programs, flat rate for undergraduate programs) plus fixed charges. All amounts are in Pakistani Rupees (PKR).

Program	Tuition Fee (per semester)	Admission Fee (one-time)	Security Deposit (refundable)
BS Computer Science	185,000	25,000	15,000
BS Software Engineering	185,000	25,000	15,000
BS Electrical Engineering	195,000	25,000	15,000
BBA / BS Accounting & Finance	150,000	20,000	12,000
BS Pharm-D	210,000	30,000	15,000
MS (all disciplines, per credit hr)	18,500	15,000	10,000
PhD (all disciplines, per credit hr)	22,000	20,000	10,000

2.1 Fixed Semester Charges (All Programs)

Charge	Amount (PKR)	Frequency
Library Fee	3,500	Per semester
Laboratory Fee (science/engineering programs)	8,000	Per semester
Student Activity & Sports Fee	2,500	Per semester
Health Insurance Contribution	2,000	Per semester
Technology/LMS Fee	3,000	Per semester

3. Payment Schedule

Fee vouchers are generated on the Fee Management System (FMS) at the start of each semester, immediately after course registration is finalized. Students may pay via bank challan (designated branches of HBL and MCB), online banking, or the 1LINK payment gateway integrated into the student portal.

Milestone	Deadline (from semester start)
Fee voucher generation	Day 0 (registration finalization)
Fee due date (no fine)	Within 15 calendar days
Late payment window (with fine)	Day 16 – Day 30
Final deadline / course de-registration	Day 31

3.1 Installment Plan

Students facing genuine difficulty in paying the full semester fee in one installment may apply to the Finance Directorate for a two-installment plan. Approval is at the discretion of the Director Finance and is not available to students who defaulted on an installment plan in a previous semester.

Installment	Percentage of Total Fee	Due Date
First Installment	60%	Standard fee due date
Second Installment	40%	6 weeks after first installment

4. Late Fee and Penalties

Days Late	Fine
1 – 7 days	PKR 500 flat
8 – 15 days	PKR 1,500 flat
16 – 30 days	PKR 3,000 flat + 1% of outstanding balance per week
Beyond 30 days	Course registration cancelled; readmission fee applies

5. Refund Policy

Refunds are only processed for students who formally withdraw from the University or a specific course within the add/drop period, or whose admission offer is withdrawn by the University. Refunds are credited to the student's original payment source within 21 working days of approval.

Withdrawal Timing	Tuition Refund	Fixed Charges Refund
Before start of classes	100%	100%
Within first week of classes	75%	0%
Within second week of classes	50%	0%
Within third week of classes	25%	0%
After third week of classes	0%	0%

The admission fee and security deposit are non-refundable once a student has been issued a student ID and has attended at least one class, except in cases where the University itself cancels the program of admission.

6. Security Deposit

The refundable security deposit is held for the duration of a student's enrollment and is returned, less any outstanding dues or fines, within 45 working days of the student's graduation, withdrawal, or expulsion. Claims must be filed through the Alumni and Clearance Office using the Final Clearance Form.

7. Dishonored Payments

A cheque or online payment that is dishonored or reversed for any reason will be treated as non-payment, and the standard late fee schedule will apply from the original due date. A processing charge of PKR 2,000 is additionally levied for each dishonored transaction.

8. Fee Concession Overlap

Where a student is eligible for a scholarship (see Scholarship and Financial Aid Policy) as well as a sibling discount, only the higher of the two concessions is applied; concessions are not cumulative unless explicitly approved by the Vice Chancellor in an individual case.

9. Accepted Payment Methods

Method	Processing Time	Notes
Bank Challan (HBL/MCB designated branches)	1–2 working days	Retain stamped copy as receipt
Online Banking / IBFT	Instant to 1 working day	Use FMS-generated virtual account number
1LINK Payment Gateway (student portal)	Instant	Visa/Mastercard debit and credit accepted
Demand Draft / Pay Order	3–5 working days	Payable to 'Al-Noor University of Science & Technology'

10. Frequently Asked Questions

Q: What happens if I do not pay my fee by the final deadline?

Your course registration for the semester will be automatically cancelled by the system, and you will need to apply for readmission, subject to a readmission fee and seat availability.

Q: Can I pay fees for two semesters in advance?

Yes, advance payment is accepted for up to two semesters. Advance payments do not lock in the current fee rate if a University-wide fee revision takes effect in the intervening semester.

Q: Is the technology/LMS fee waived for online-only courses?

No. The Technology/LMS Fee applies uniformly regardless of course delivery mode, as it also covers campus network infrastructure and the student email service.

For fee-related queries, contact the Finance Directorate at finance@anust.edu.pk or visit the Fee Counter, Ground Floor, Administration Block, open 9:00 AM – 3:30 PM, Monday to Friday.
